TIROL

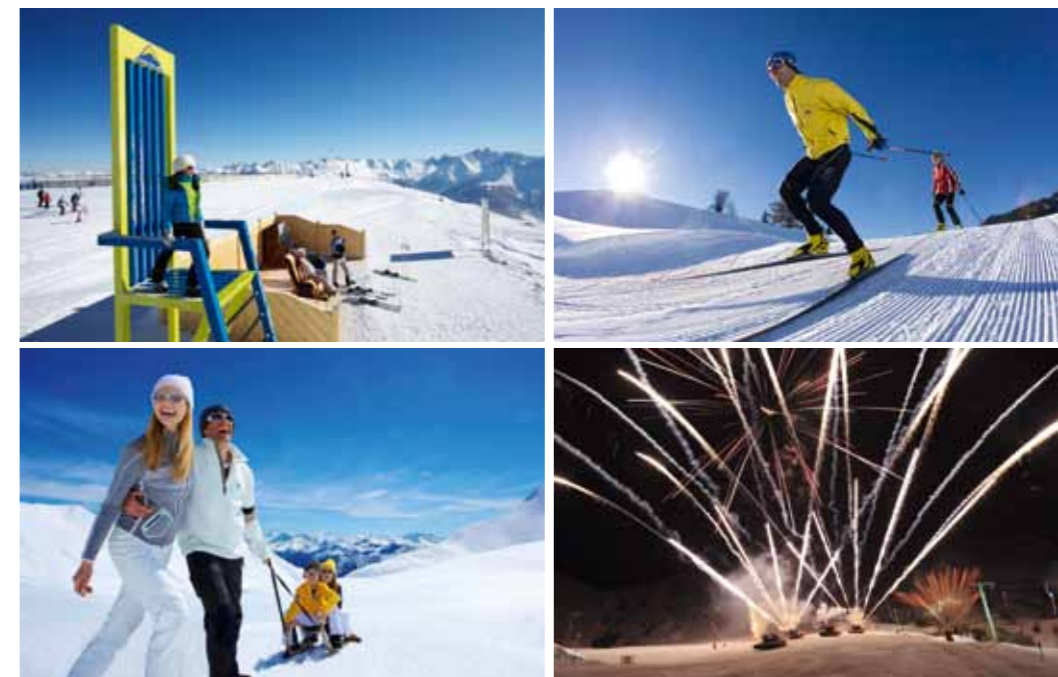

When it says **Tyrol** on it ... it's also got **Tyrol** in it!

Winter 2011/2012

## Alpine Lifestyle à la Tirol

## Winter holidays on the sunny Fiss-Ladis-Serfaus plateau

### Dear guests,

The first tracks will soon be decorating the mountain once again, because **3 December is the big day – the start of the winter skiing season** in Fiss-Ladis-Serfaus and therefore at the Hotel Tirol too. We hear our many regular guests saying “We love coming back here time after time”. This is fine praise and we like passing it on to our staff, but at the same time it is also an incentive to keep improving our service and quality all the time. Everyone who knows the sunniest region of Tyrol also knows that there is something new going on here all the time. This is what the name guarantees: Tyrol’s ski dimension Fiss-Ladis-Serfaus – **a winter paradise for impassioned skiers and their families.**

For connoisseurs there are wonderful snowy landscapes and cleared winter hiking routes on offer. Traditional mountain lodges, comfortable loungers, the pleasure pavilion and the

hammock village are highlights of the panoramic pleasure path. Feel like a spot of tobogganing? On the lively runners and with a hint of butterflies in your stomach you can race or saunter down to the valley. On the Adventure Nights on Wednesdays you can try night-time tobogganing along the 4.5 kilometre long, floodlit toboggan run. And all cross-country skiers can discover the winter and take a few deep breaths too, because there are 135 kilometres of trails just waiting to be discovered.

**So off we go this winter**, which once again is packed with highlights and surprises. Leaf through our winter brochure and make sure of your stay at the Hotel Tirol as soon as you can. We are looking forward to pampering you again with a friendly smile and a vital spirit. **BECAUSE WE ENJOY DOING IT.**

Yours, the Pregenzer family

**TIP:**  
 Within easy walking distance

## CULINARY EXPERIENCE: THE NEW "ZIRBENHÜTTE" RESTAURANT

On the north side of Fiss by the Schöngampbahn valley station is the cosy, rustic Zirbenhütte waiter service restaurant. The open hearths, fireplaces and a variety of parlours and lounges invite visitors to linger for a while. **Enjoy the Tyrolean cuisine amidst the wonderful mountain world.**

## THE FIRST TRACK. FISS. LADIS. SERFAUS.

**Decorate the mountain with your 'first track' before other people beat you to it!** You just have to get up early. Because as early as 7.30 in the morning, an hour and a half before normal lift operations, the first gondolas in Fiss-Ladis-Serfaus are already whirring their way up towards the snowy skies. Participant numbers are limited to 25 early risers. Awaiting them is an unforgettable experience on the velvety ground. Leave your stamp on the virginally prepared slopes in the form of a fine ski track or surf smoothly across the white slopes.

The 'first track' is offered in Fiss-Ladis-Serfaus every Wednesday from 15.12.2011 to 20.04.2011. The price of €50 per person includes not only the cable car trip and guided tour, but also an exclusive breakfast buffet on the mountain, served at around 09.00 in the Sonnenburg family restaurant in Fiss or the ski lounge in Serfaus.

**Information and reservations**  
 Register by 16.30 the previous day at the cable car ticket offices. Participation only with valid ski pass. And to ensure that 'first track' participants don't see red immediately, they should be able to master red runs easily.

## FEELING GOOD IS WHERE IT'S AT!

Glorious pistes and good reasons to take a break now and then. Unstrap your skis, switch off and feel good any way you want to, on the ergonomic loungers, in comfy hammocks or on the laid-back lounging furniture which is positioned at particularly attractive spots throughout the ski region. 19 feel-good stations await winter sports enthusiasts who like to unstrap and switch off for a while in between. And each of the stations has a different design. Stocking up on energy between the runs, enjoying a pleasurable few minutes of sunbathing or simply admiring the fabulous panorama – whatever you feel like doing, putting in a stop here is guaranteed to be worthwhile.

By the way: It's easy and fast to find out where the nearest feel-good station is when you're out and about in the ski resort – simply look at the ski map.

## A CUBE FOR ENJOYMENT ON HIGH: THE CRYSTAL CUBE

Close to the viewing platform on the Fiss Zwölferkopf at an altitude of 2,600 metres, a giant cube stands at an angle in the landscape. From the outside it is completely mirrored, allowing no view of the inside, which makes it look vaguely extra-terrestrial. Once you have entered the cube, there is a huge change of scene. Because it is completely glazed, you have a fantastic 360-degree all-round view of the wintry mountain panorama. And because of the angle of the cube you could almost believe you were stuck right to the shoulder of the mountain.

But visitors to the Crystal Cube should not only look round until they can look no more, but also fill themselves up in the finest manner. In the cube up to 8 people can enjoy select delicacies with champagne and even oysters, provided these are pre-ordered. There is no dress code, because you are on the mountainside after all. So it is totally ok for a group of skiers to meet up in the Crystal Cube for a fine lunch, and after they have experienced this enjoyment on high they can then ski back down into the valley again. However, due to the limited space on offer, prior reservation is necessary. This uniquely enjoyable experience costs €65 per person.

# PHENOMENALLY DIMENSIONAL. TYROL'S SKI DIMENSION FISS-LADIS-SERFAUS.

## Winner of numerous awards as the top family ski resort in the Alpine region with unique facilities for children

Dimension is a term which mainly indicates size. So you might well think that 'Tyrol's Ski Dimension' Fiss-Ladis-Serfaus is one of many large-scale ski resorts whose advantage lies mainly in having a joint ski pass. But up here, at a height of almost 3,000 metres, the term 'Tyrol's Ski Dimension' means a large-scale winter stage, which stands out from other regions above all due to the variety and perfection of what it has to offer.

## Everything snow fans could desire

## Shows three times over in the snowy paradise

What started many years ago in Fiss-Ladis-Serfaus with a single show will feature a trilogy of shows this winter, offering a variety of experiences and with different programmes and themes in the three places. Serfaus marks the beginning on Friday 09.12.2011 and then every Wednesday from 14.12.2011 to 11.04.2012 with its Adventure Night, under the motto **'Circle of Life'**. Action-packed performances in a multimedia format tell the story of the Circle of Life. This stirring and happy show will captivate and enchant visitors once again this winter.

On the Möseralm above Fiss more than 150 actors and technicians will be busy every Tuesday from 21.00

staging a perfect show with **'Nightflow'**. Spectacular effects and perfect demo riding by the Fiss-Ladis ski school, plus snowboarders and fun sports enthusiasts swishing down the slopes at a breakneck pace: all blended to create a rousing, daring show which finishes with a huge firework spectacular. Nightflow takes place from Tuesday 20.12.2011.

The smallest place, Ladis, pulls out all the stops in a very special way: In the Jubilee year 2012 Ladis celebrates 1,000 years of history and marks this ceremonially with numerous attractions. Four times this winter **'Magic Ladis'** will carry spectators away to the beginnings of winter tourism in the region, with a surprising show from 21.00 under the motto '1,000 years – History meets Ladis'. The stories tell of the opening of the first ski school in 1912 and the adventurous ski tours of those days, as well as the development of tourism in the 1950s. The romantic setting beneath Laudeck Castle will be turned into the magic stage for mystical music and fascinating pictures.

**Impressions ... Anticipation ... Yearning ...**

# A snowy start to the winter season 2011/2012
